

VGC™ One Step Termination Tool

Applications

The Vericom VGC™ One Step Termination Tool can be used for the simultaneous seating and quick termination of 23-24 AWG Category 6 and 5e Cable into our VGC™ CAT6 and CAT5e 90 Degree keystone jack modules.

Description / Specifications

The VGC™ One Step Termination Tool saves time and improves accuracy by seating and terminating all wires simultaneously with a quick, easy squeeze of the handle. The integrated blade cuts and removes excess wire after seated in the connector, eliminating any need for extra trim steps. Built for simple one-handed operation, with an ergonomically designed handle for maximum grip and comfort, this termination tool minimizes hand fatigue and helps reduce installation stress.

How To Use:

Features & Benefits

- Terminates 90 degree jack modules faster than traditional termination tools.
- Seats and terminates all conductors simultaneously.
- Integrated blade cuts and removes excess wire after seated in the connector - no extra trim steps needed.
- Reliable, high grade terminations - say goodbye to compromised connections and re-terminations.
- Simple, one handed operation with ergonomic handle for grip and comfort.
- Minimizes hand fatigue and reduces installation stress.
- Sold individually.
