

RJ14 Clear Connectors

Applications

These RJ14 connectors are used for crimping and terminating voice & data cables. This 6P4C plug is suitable for use with unshielded Category 3 and will accept Category 5/5e wiring.

Description / Specifications

These RJ14 unshielded connectors are composed of a polycarbonate material body, with gold plated contacts, and are suitable for use with 4 conductor 24 - 28 AWG solid and stranded Category 3 and 5/5e conductors. These connectors are available in a bag of 50.

Pair with our modular plug tool (Item # WTRJC-03632) for simple, quick and easy repeatable terminations.

Ordering Information

Description	
RJ14 Clear Connectors	
Item Number	Packaging
WRJ14-04492	Bulk (50 Per Bag)

Features & Benefits

- Suitable for CAT3 unshielded installations
- Terminates 24-28 AWG stranded or solid conductors
- High-impact clear polycarbonate plugs
- Gold Plated Contacts
- Packaging: Bag of 50

Construction

Body Material: Polycarbonate

Contact Material: Gold Plated Brass

Mechanical

Wire Compatibility: 24 - 28 AWG Solid or Stranded

Insulation Resistance: Min 1000 megaohms

Standing Voltage: 1000V AC/ minute

Mating Life Cycle: Min 750 cycles
