

Category 6A RJ45 Clear Connectors- Shielded

Features & Benefits

- Suitable for CAT6A shielded installations
- Shielded to reduce EMI
- Terminates 22-26 AWG stranded or solid conductors
- High-impact clear polycarbonate plugs
- 50u" gold plated contacts
- Packaging: Bag of 50

Construction

Body Material: Polycarbonate
Shield Material: Nickel Plated Steel
Contact Material: Gold Plated Brass

Mechanical

Wire Compatibility: 22 - 26 AWG Solid or Stranded
Insulation Resistance: Min 1000 megaohms
Standing Voltage: 1000V AC/ minute
Mating Life Cycle: Min 1000 cycles

Ordering Information

Description	
Category 6A RJ45 Clear Connectors- Shielded	
Item Number	Packaging
WRJ45-04468	Bulk (50 Per Bag)

Applications

These Category 6A Shielded RJ45 connectors are used for crimping and terminating 10GBASE-T Ethernet Cables. This plug is suitable for use with shielded Category 6A cable.

Description / Specifications

These RJ45 shielded connectors are composed of a polycarbonate material body, with a nickel plated steel shield, and gold plated contacts. These connectors are suitable for use with shielded Category 6A 22 - 26 AWG solid and stranded conductors, and are available in a bag of 50.

Pair with our Category 6A Ratcheting Modular Plug Crimping Tool (Item # WTRJC-05008) for professional, consistent and repeatable terminations.
